

LAHORE COLLEGE OF ARTS SCIENCE & T

Course Code: Credit Hrs. Subject Title: Mo

Program: Semester: 5th BSCS/IT-5 Teacher Name:

Topic No.	Topics	
1	Introduction to Mobile Application Development	
2	Mobile Application Development Platforms	
3	HTML5 for Mobile Applications	
4	Android Operating System Architecture	
5	Android Application Framework	
6	Android Applications Development Environment	
7	Windows Mobile Application Development	
8	Android Studio & Project Structure	
9	Activities and Activity Lifecycle	
10	Fragments and Fragment Lifecycle	
11	Building User Interfaces in Android	
12	Using Intents in Android Applications	
13	Displaying Notifications in Android	
14	Android UI Components	
15	Screen Adaptation & Supporting Multiple Devices	
16	Managing Screen Orientation Changes	
17	Using the Action Bar in Android	
18	User Interface Design Principles	
19	User Input Handling & Form Controls	
20	User Preferences & Shared Preferences	
21	Data Storage Options in Android	
22	Persisting Data using SQLite Databases	
23	Working with Files & Internal/External Storage	
24	Android Networking: HTTP & Web Services	
25	Sending and Receiving SMS Messages	
26	Sending Emails and Using Implicit Intents	
27	Publishing & Deploying Android Applications	
28	Device Connectivity and Sensors	
29	Challenges in Mobile and Wireless Computing	
30	Mobile Operating Systems Comparison	
31	Mobile Application Performance & Tradeoffs	
32	Latest Trends & Emerging Mobile Technologies
